Name of Student			
Lab Experiment No.	1.2	Roll No.	
Date Of Perf.:		Date Of Sub.:	
Expt. Title	Study general purpose utility commands in UNIX		
CO Mapping	LO1		

Aim: To study general purpose utility commands in UNIX

Objectives of the Experiment:

   To introduce Basic Unix general purpose Commands

Unix Commands to explore:

cd, cp, ps, ls, mv, rm, mkdir, rmdir, man, who, cat, echo, more, date, time, kill, history, chmod, passwd, who am i, who, time, bc, history, clear, man, lost, chown, finger, pwd, cal, logout, shutdown

---

1. Execute the above mentioned commands.
(For each command, document information in following manner)

Command:	Description:
Options:	Description(s):
Output	Observation

The outputs were checked for different sets of inputs.
Program is working is   SATISFACTORY   NOT SATISFACTORY   (Tick appropriate outcome)

   Evaluation:

Timeline (2)	Understanding(2)	Performance (4)	Postlab (2)	Total(10)
